STATINTL To:

Subject: ADDITIONAL GUARD SERVICES REQUIRED AT EAFB

STATINTL Since the move to Edwards AFB in March 1964 we have furnished contract guard  
services for buildings [redacted] The total requirement has ranged from  
600 to 675 hours per week at a corresponding cost of [redacted] STATINTL  
STATINTL per week. Scheduling of services has been quite predictable to date with  
only 6 hours of overtime required from 3 March to 18 September 1964.

STATINTL [redacted] Test Director, has requested that we add two men to build-  
ing [redacted] increasing the hours by 82. He has also stated that we should plan  
on guarding building 1414, which is now being activated. The initial require-  
ment for 1414 is 170 hours and will increase to about 600 hours when the build-  
ing is fully operational.

To summarize, the requirements for guard services are expected to increase  
from approximately 650 hours to 1,300 hours per week; the cost will, there-  
fore, increase over the next few months from the current [redacted] per STATINTL  
week. At your convenience, we would appreciate receiving an indication of  
your approval to supply these additional services at EAFB under our Contract  
CA-20.
